

## TECHNICAL RIDER DR.NOJOKE

### My Equipment

Laptop, Microphone Sure SM58, Kaoss-Pad, Boss Voice Transformer, radio, stylophone, motu ultralite audio-interface, 2 controller (UC16 & Korg nanoKontrol), toy accordeon, plastic bottle, jew´s harps, percussions, flutes, plastic bottle and other mini-toys.

### I need

- > One **solid** table – approx. 1.5m wide, 1.0m deep, ca. 80cm high put with the front to the audience.  
Not to be placed beside or directly beneath the front P.A.-speakers to prevent feedback via the microphone.
- > One microphone stand with a boom.
- > 220 Volt, 5 electric sockets Type CEE 7/4 (German: "Schuko")  
<http://en.wikipedia.org/wiki/Schuko>
- > Please provide a spotlight (red/orange or blue/violet).

I send out only one stereo-signal: Two mono-jacks.

I perform without monitors.

I need half an hour for setting-up my equipment.

Another half an hour for the soundcheck (before opening the venue).

Please note that I need 15 minutes for packing my stuff after my performance!

For further details feel free to contact me:
