

TECHNICAL RIDER DR.NOJOKE

I need

- > One **solid** table – approx. 1.5 m x 1.0 m x 80 cm (height) put with the front to the audience. The distance to loudspeakers should be min. 2 meters.
- > One boom microphone stand.
- > 220 Volt, electric socket Type F, CEE 7/4 (German "Schuko" 16A/250V earthed)
<http://en.wikipedia.org/wiki/Schuko>
- > Please provide a spotlight (red/orange or blue/violet).

I send only a stereo out of my mixing desk so I will only require:
Two mono-jacks.

Due to feedback I perform without monitors.

I need half an hour for setting-up my equipment.
Another half an hour is necessary for the soundcheck (before opening the venue)
Please note that I need 15 minutes for packing after my performance

For further details feel free to contact me:
dr.nojoke@gmx.de / ++49-(0)30-2006 5088 / ++49-(0)176-2395 2163

C. u. soon, Bogdan
